

Roller Door - Top Mounted

Wind Resistant

Keep insects out. Let fresh air in.

A robust, top-mounted retractable screen designed for doorways. The grey insect mesh pulls smoothly down across the opening when needed and retracts neatly into the top cartridge when not in use.

Anti-wind brush strips help to hold the mesh securely within the side tracks, making this our most wind-resistant roller door screen.

This screen is suitable for reveal fitting only. If your door opens outwards, the screen is fitted on the inside; if it opens inwards, it is fitted on the outside. The screen is chain operated, fitted with a safety break, and can be operated from both sides.

Why Choose This Screen?

The wind-resistant roller door screen is a practical option for domestic doorways, with no bottom rail to create a tripping hazard.

Product Details

- White powder-coated aluminium cartridge and tracks
- Grey insect mesh
- Top-mounted retractable design
- Anti-wind brush strips
- Made to measure
- Minimum width: 520mm
- Maximum size: 2000mm wide × 2480mm high

Before You Order

- Check there is enough space within the reveal for the cartridge and tracks.
- A suitable level fixing surface is required at the base of the side tracks.
- The operating chain must be positioned a minimum of 60cm from the ground and fitted with a safety break device.
- This product is made to the measurements you provide, so please measure carefully.

Roller Door - Top Mounted

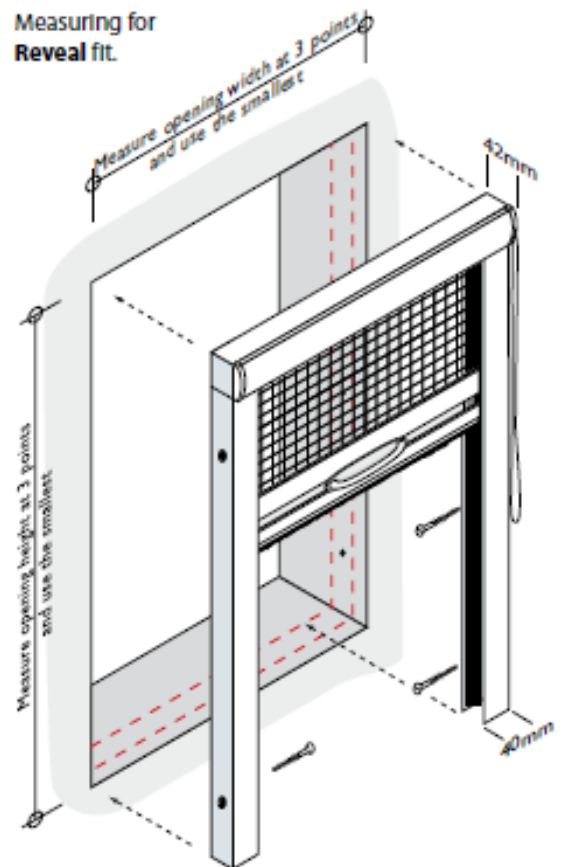

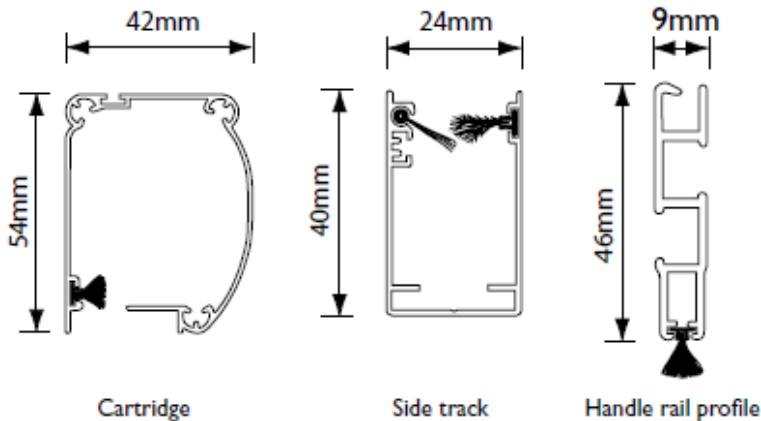

Wind Resistant

Measuring Instructions

Measure the width and height of the door aperture in three places and use the smallest measurement for each.

Deduct 2mm from the smallest width and height measurements.

Important Notes

- Always measure in millimetres (mm) and provide sizes as width × height.
- Include any bevelled edges in your measurements.
- All screens are made to the measurements you provide. A manufacturing tolerance of $\pm 2\text{mm}$ applies, so it's important to measure carefully.
- We do not make any further allowances or deductions from the measurements you provide.
- Double-check your measurements before ordering.
